

What is a Norb?

It's a **Nutri-Orb**, a specialized white LED light bulb for plant health and growth.

Norb helps plants thrive and *Look Right Under White (Light)*™

This unique Norb was designed to help ensure that your plants thrive and grow in a healthy manner.

Plants are a lot like people and pets; they need proper nutrition to thrive, and the **Norb Botanic** is designed to **provide the light-nutrition that plants need.**

With Norb Botanic, not only will your plants thrive; they will look "right under white" — Norb provides a unique color spectrum, allowing your plants to look natural.

What makes a Norb the ideal choice for growing healthy plants?

- Proper spectrum for plant health
- Enhances chlorophyll production
- Looks natural
